

GSR B230T Iveco Daily 35-140 Truck-Mounted Lift

Registration Number: LSH-201

Before Using the Truck-Mounted Lift

To ensure that the equipment is ready for use as smoothly as possible, please complete the following steps before use:

Inspect the overall condition of the equipment before use.

We recommend taking photographs of the overall condition of the equipment before use, including different sides of the vehicle, the cab, the work platform and the lift.

If you notice any damage, defects or other issues, please report them before using the equipment. Photographs of any issues observed will help facilitate their assessment.

Please read the rental terms and operating instructions before using the equipment. If anything is unclear, please contact us before using the equipment.

If you are not already familiar with the equipment, please ensure that you have received sufficient operating instruction before using it.

The operating manual is available in the vehicle.

If you have any questions, we are happy to help.

Inspecting and photographing the equipment before use helps ensure that the rental can begin as smoothly as possible.

Please inspect the overall condition of the equipment before use and notify the Lessor of any defects, damage or other irregularities before using the equipment. Please also ensure that you have read the rental terms and conditions before use.

Inspecting the equipment before use helps ensure that any damage or defects can be identified and addressed as quickly as possible. If any externally visible damage, defects or irregularities observed before use are not reported, the equipment shall be deemed to have been in externally acceptable condition upon receipt insofar as such defects or damage would have been detectable during an ordinary inspection.
